

# YOUR MOTHER WOULD BE RICH

*(IF IT WEREN'T FOR YOU!)*

You probably don't know what your mother gave up to bring you into this world and keep you safe for years on end. If you did, you would realize that she deserves your respect and admiration EVERY DAY, not just on Mother's Day.

Here are a few facts to make you feel the appropriate amount of guilt:

## 50+ JOB ROLES

On any given day, your mom has to be a driver, a housekeeper, a chef, a **psychologist** and more!

## 96.5 HOURS PER WEEK

With all her duties combined, she works the equivalent of **2.4 full-time jobs**.

## \$119,606 PER YEAR!

Your mom's annual salary for the work she does would be **double** the national median.

## COST OF BEING A MOM BY CITY

But \$119,606 is just the national average of what mothers sacrifice for us. To get the real picture of how much you've been costing your mom due to your existence, **you need to see it at the city level.**

Regardless of what city you live in, you should go apologize to your mother right now and keep thanking her until she tells you to stop.
